MOODY'S

"The credit profile of the Metropolitan Municipality of Istanbul reflects its **robust operating performance and valuable asset base supported by its large local economy, which provides fiscal flexibility [...]**.

Credit Opinion – July 2024

KEY CREDIT STRENGTHS

- 1 Continuous tax revenue growth, tight control over operating expenditure and Istanbul's strong and diversified local economy to support the continuation of the city's robust operating balance in 2024-2025
- 2 Rigorous oversight is maintained over the expansive sector of municipal corporations... This enhanced control has led to a gradual reduction in the city's indirect debt level
- 3 Istanbul's economy is by far the largest among Turkish metropolitan municipalities... The city's economic base is highly dynamic and much more diversified than that of other Turkish cities, limiting its exposure to economic cycles somewhat

FitchRatings

"Istanbul Metropolitan Municipality will maintain a **robust operating balance** despite high inflation."

Rating Report – August 2024

KEY CREDIT STRENGTHS

- 1 Robust tax revenue growth prospects... resilient amidst economic slowdown.
- 2 Istanbul's low share of rigid costs provides certain degree of expenditure adjustability... *[as]* investments can be postponed or even narrowed.
- 3 ... strong debt metrics despite currency depreciation and capex needs. Payback ratio... and fiscal debt burden... *[are]* both supported by a strong operating performance.

Strategy Towards a Carbon Neutral and Resilient City

Deadline
2020
Commitment

- IBB has signed the Deadline 2020 Commitment, pledging to become a **carbon neutral and resilient city by 2050**
- Istanbul seeks to lead the way for other metropolises both domestically and in the region in bold climate action at national and international level

IBB's goal is to achieve **net-zero emissions by 2050**. Emissions are currently over 50 MtCO₂e, and will continue to increase if nothing is done

Climate-Neutral and Smart City

Istanbul is one of the Mission Cities selected as part of the extra 12 non-EU cities from countries associated to Horizon Europe to participate in the EU Mission for “100 climate-neutral and smart cities by 2030”

EU Mission for climate-neutral and smart cities by 2030:

- 100 climate-neutral and smart cities by 2030
- Ensure that these cities act as experimentation and innovation hubs to put all European cities in a position to become climate-neutral by 2050

Climate Change Action Plan

Istanbul Climate Change Action Plan

IBB has set effective targets for emission reduction and formulated adaptation strategies to guide its fight against the climate change

Strategic plan 2020-2024 & İstanbul Vision 2050

- The **Strategic Plan 2025-2029** was co-produced with the İstanbulites by adopting the policies outlined on its main service areas such as disaster and risk management, mobility, environment protection, smart infrastructure and social welfare.
- The **İstanbul Vision 2050 Strategy** accepts a challenge regarding the five main areas of crisis that shape the world of the future:
 - 1) Governance and Democracy
 - 2) Economy and Development
 - 3) Ecology and Environment
 - 4) Urban Built Environment, Transportation and Infrastructure
 - 5) Social Welfare and Justice

IBB's Sustainable Finance Framework

1. Use of Proceeds

Green Use of Proceeds

- Clean transportation
- Renewable energy
- Climate change adaptation
- Pollution prevention and control

Social Use of Proceeds

- Affordable basic infrastructure
- Access to essential services
- Food security and sustainable food systems
- Socioeconomic advancement and empowerment

2. Project Selection and Evaluation

IBB's **Sustainable Working Committee (SWC)** will be responsible for reviewing and overseeing the project evaluation and selection process in accordance with the Framework's eligibility criteria

The SWC includes members from the Legal Consultancy Department, Department of Financial Affairs, and Department of Environmental Protection and Control

Framework specifies legislation which mitigates environmental and social risks in relation to projects

3. Management of Proceeds

The **Eligible Sustainable Projects Portfolio** relating to a Sustainable Finance Instrument will constitute expenditures that occurred no earlier than three budget years prior to the year of issuance, the budget year of issuance, and two budget years following the year of issuance.

Pending full allocation, unallocated proceeds will be managed as per IBB's general cash management policy

4. Reporting

IBB will **annually publish allocation and impact report⁽¹⁾** on its website until full allocation

IBB may on a best efforts basis report on impact metrics where relevant

This framework is based on:

ICMA Principles:

LMA/APLMA/LSTA:

Examples of Green and Social Projects

Infrastructure for metro lines

Currently 10 rail lines are under construction. We aim to complete 717.06 km of lines by 2050

Genc Universiteli programme

Scholarships to students with a low-income background, residing in İstanbul, who wish to continue their education either in a state-owned university or foundation or private university

Marriage Support

Providing economic support to couples who will get married within 3 months and are determined to need economic support

Askıda Fatura initiative

Askıda Futura initiative brings together philanthropists who want to voluntarily support such families by providing cash aids, paying off utility bills, and supporting the needs of babies aged zero to four

Construction of nurseries

Construction of nurseries that will be accessible to the disadvantaged population at a subsidized rate

Installation of Solar Power Plants

Covering the roofs of IMM buildings with solar power plants to produce its own energy for reducing the negative environmental impacts
